

Skyhigh Secure Web Gateway (Cloud)

e-Learning (Self-Paced) Training

Audience

This course is intended for system and network administrators, security personnel, auditors, and/or consultants concerned with web protection.

Assessment

Complete the End of Course exam to evaluate the effectiveness of the course and download the Course Completion certificate from the [Skyhigh Academy](#) Portal.

Course Overview

The Skyhigh Secure Web Gateway (Cloud) eLearning course is designed to introduce you to the concepts, user interface, and administration of Secure Web Gateway (SWG) for Cloud. You will learn how to set up SWG in Skyhigh Security Cloud platform, create web policies, and how to analyze web traffic and malware. Skyhigh Security products and capabilities explained in this course include the Skyhigh Security Cloud Platform, Secure Web Gateway, Remote Browser Isolation (RBI), Cloud Firewall, and Private Access (ZTNA). Each of these products and capabilities are integral to the Skyhigh Security Service Edge (SSE) product and security philosophy.
